

SiteRight Vehicle Marshaller

COURSE OUTLINE

This course is designed to raise awareness of the dangers caused by moving vehicles in construction and will provide delegates with an understanding of current legislation and best practice.

Alongside raising awareness of the dangers caused by moving vehicles in construction, the course will outline the hierarchy of controlling plant and vehicle movement on site. Delegates will learn to put into practice the principles of safe movement of plant, particularly the reversing of vehicles on site.

LEARNING OUTCOMES

In line with NOCN standards, this course will cover the following subject areas:

- Raise awareness of the dangers caused by moving plant.
- Understand the current legislation and best practice.
- Outline the hierarchy of controlling plant and vehicle movements on site.
- Put into practice the principles of safe movement of plant, particularly reversing vehicles on site.
- Understand organisational duties and procedures on site.

COURSE SPECIFICATION

- 1 Day
- Theory & practical training and testing.

PRE-REQUISITE

Candidates must be aged 17 or over.
