

## SiteRight Health & Safety Awareness in Construction (Blended Delivery)

### COURSE OUTLINE

This course is for those who have entered, or are about to enter, the construction and civil engineering industry as a member of the workforce to help them understand the potential hazards that they face at work on site. It aims to provide a practical summary of health and safety, welfare and environmental health and safety issues.

### LEARNING OUTCOMES

In line with NOCN standards, this course covers the following content:

Ensuring the individuals responsibilities are understood, i.e.:

- why they are carrying out their identified roles
- what is expected of them
- how they contribute to the safety of the workplace.

At the end of the day the delegates will be able to:

- understand the need to prevent accidents
- have an understanding of health and safety law
- identify how their role fits into the control and management of the site
- understand the need for risk assessments and method statements
- appreciate the need to perform safely and to stop and ask for advice if not sure
- report unsafe acts to prevent an accident.

### COURSE SPECIFICATION

- 1 Day.
- Theory training and testing.

### PRE-REQUISITE

N/A

### CERTIFICATION

Successful candidates will receive a NOCN SiteRight certificate valid for 5 years from the date of the course.
