

## Loadmaster

### COURSE OUTLINE

This NOCN SiteRight course is aimed at a wide group of learners who may be involved in the delivery / loading of plant on site. to be delivered to learners involved in generic loading / unloading situations or when loading / unloading alongside or close to live traffic.

This course has been developed to promote safe plant vehicle loading / unloading practices in the construction industry. This course was created as there have been several near miss incidents within the industry, especially when loading and unloading plant in restricted areas such as Smart Motorways.

### LEARNING OUTCOMES

In line with NOCN standards, this course will cover the following subject areas:

- Types of transporter
- Supervising the unloading of plant
- Working at height Regulations
